

WESTERN MONEY SYSTEMS
SPECIALIZING IN CASH HANDLING TECHNOLOGIES

CX2 All-in-One Xchange

Service two guests at once:

The CX2 All-in-One multi-function kiosk can handle two different cash transactions for two players on opposite sides at the same time. Our new 6 pocket Fujitsu dispenser provides increased cash handling capabilities, and can dispense to both sides of the kiosk.

The typical unit will provide ticket redemption and bill breaking on one side, with ATM functionality on the other side. The two non-dispensing sides are designed to feature 42" light boxes with standard or custom glass. Optional 42" LCD screens are available. The top box comes standard with backlit glass, or can be customized with up to four 24" wide screen LCD monitors.
