Customize:

Go beyond what the competition offers and develop a look unique to your property needs

First, select a cabinet style from upright, to tall with glass, to LCD ready with glass or with up to four 19" LCD monitors. There is even a slant cabinet available with or without a 24" wide screen LCD overhead display.

Pick a laminate to match, blend, or accentuate your casino décor. Create casino artwork and custom static screens can advertise your casino when players approach.

Provide custom artwork for glass in our tall or LCD ready cabinet to act as custom signage, viewable across the casino floor. Utilize up to 4 LCD monitors to display a slide show, run motion video, or any content developed by your creative marketing personnel, to advertise exciting casino events. This is a truly powerful tool that enhances your advertising capabilities.
