

XchangeTM

Fascia:

Dress your upright kiosk by adding a beautiful injection molded fascia. A completely custom look can be created to suit your individual needs. The only limits are your imagination in combining any two colors from the Pantone spectrum. Create a dramatic effect by choosing unusual colors, or accent the kiosk laminate to make it an integral part of your casino decor.

Standard coloring is Black carbon fiber side with Silver center, shown above. Upgraded coloring is Black carbon fiber side with Red center, or the Black carbon fiber side with Yellow center shown.
